* If the entry in column 1 is less than the entry in column 2, write 1 in column 3.

*** If the "Highest Number Previously Paid For" IN THIS SPACE is less than 21, enter:

If the "Highest Number Previously Paid For IN THIS SPACE" is less than 2, enter:

The "Highest Number Previously Paid For" (Total or Independent), is the highest amount listed in the appropriate box in any prior collection of information as required by 25 CFR 170.103.

[illegible]

It is important to understand that the β values are not the same as the β values in the regression model. The β values in the regression model are the coefficients of the independent variables, while the β values in the structural equation model are the coefficients of the latent variables. The β values in the structural equation model are the same as the β values in the regression model, but they are estimated using a different method.
